Summary

Full Stack Developer with expertise in developing scalable, maintainable, and high-performance web applications. Proficient in React, TypeScript, REST APIs, and modern frontend engineering, with strong skills in Backend component architecture, system design, debugging, and optimization. Committed to writing clean, efficient code and delivering intuitive digital experiences while continuously learning and adapting to emerging technologies.

Experience

Full Stack Developer Intern - Miclient

June 2026 – Present

React.js, Next.js, TypeScript, Express.js, PostgreSQL, Prisma ORM, OAuth 2.0, REST APIs

- Architected and built responsive User and Employer Onboarding & Verification systems using React.js, Next.js, and TypeScript.
- Designed and integrated scalable REST APIs using Express.js and Prisma ORM to manage relational data in PostgreSQL.
- Deployed secure OAuth 2.0 social authentication (Google, Microsoft, LinkedIn) and JWT-based session management via Passport.js.

Software Development Intern - Metasys

May 2026 – June 2026

React.js, Next.js, REST API, SQL

- Developed responsive frontend interfaces for a premium lifestyle e-commerce platform, including product catalog, cart, and checkout flow.
- Streamlined deployment workflow through cache management and optimized build processes, enabling faster and more reliable releases.
- Optimized images, lazy loading, and build processes, reducing page load latency by nearly **40%**.

Software Development Intern - Femira (by Meraji), Indore

Jan 2026 – Mar 2026

React.js, Next.js, WordPress, HTML, CSS, SQL

- Delivered 10+ production-ready frontend and backend features for the shopping cart module (cart persistence, real-time price updates).
- Contributed across the WordPress development lifecycle, including feature development, debugging, testing, and deployment.
- Integrated REST APIs for efficient data exchange and seamless frontend-backend connectivity.

Projects

Project Synapse – AI-Powered Platform Dashboards (Customer + Rider) [\[GitHub\]](#) [\[Live\]](#)

Aug 2025 – Oct 2025

React.js, Next.js, TypeScript, Tailwind CSS, REST APIs, SQLModel, Leaflet.js

- Built a full-stack delivery platform supporting 500+ simulated users with real-time order tracking.
- Integrated AI-based chatbot workflows, reducing manual issue handling by 30% and improving response efficiency.
- Designed reusable React components, improving UI scalability and reducing development time by 20%.

Women's Day Interactive Website [\[GitHub\]](#) [\[Live\]](#)

Mar 2026

React.js, Tailwind CSS, JavaScript, AI/NLP concepts, REST API

- Designed and developed a responsive React-based web platform for International Women's Day, integrating health, career, safety, and AI-powered assistance modules.
- Integrated an AI chatbot and text-to-speech functionality, providing accessible guidance for health, safety, and career resources.
- Developed a personalized health dashboard enabling users to manage wellness information, access essential resources, and receive timely health updates.

Technical Skills

Programming Languages: Python, Java, JavaScript, TypeScript

Frontend Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Redux

Backend / API: FastAPI, Node.js, Express.js, RESTful APIs, API Integration

Databases & Tools: MySQL, PostgreSQL, SQL, Git, GitHub

Cloud & Deployment: AWS, Google Cloud

AI & Data: Generative AI, LLMs, NLP, LangChain

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), Computer Networks, DBMS

Achievements

- Secured Top 20 position in GrabHack Hackathon among national-level teams (Top 5% participants).
- AWS Certified Cloud Practitioner [\[AWS\]](#) Jan 2026 – Jan 2029.
- General Secretary at EDU4U Club Oct 2024 – Oct 2025.
- Generative AI internship at SmartBridge and SmartHub Internship: gained experience in AI workflows, prompt engineering, and enterprise AI use cases.

Education

Vellore Institute of Technology, Bhopal

Oct 2022 – May 2026

B.Tech in Computer Science and Engineering (Cloud Computing and Automation)

CGPA: 7.96
